

COSMIC MIND

P.5 - §13 2. The mind forces are convergent in the Infinite Spirit; the differential and divergent cosmic mind in the Seven Master Spirits; the factualizing mind of the Supreme as a time-space experience in Majeston.

P.45 - §6 The mind presence of God is correlated with the absolute mind of the Conjoint Actor, the Infinite Spirit, but in the finite creations it is better discerned in the everywhere functioning of the cosmic mind of the Paradise Master Spirits. Just as the First Source and Center is potentially present in the mind circuits of the Conjoint Actor, so is he potentially present in the tensions of the Universal Absolute. But mind of the human order is a bestowal of the Daughters of the Conjoint Actor, the Divine Ministers of the evolving universes.

P.53 - §1 All religious philosophy, sooner or later, arrives at the concept of unified universe rule, of one God. Universe causes cannot be lower than universe effects. The source of the streams of universe life and of the cosmic mind must be above the levels of their manifestation. The human mind cannot be consistently explained in terms of the lower orders of existence. Man's mind can be truly comprehended only by recognizing the reality of higher orders of thought and purposive will. Man as a moral being is inexplicable unless the reality of the Universal Father is acknowledged.

P.71 - §1 Capacity for divine personality is inherent in the prepersonal Adjuster; capacity for human personality is potential in the cosmic-mind endowment of the human being. But the experiential personality of mortal man is not observable as an active and functional reality until after the material life vehicle of the mortal creature has been touched by the liberating divinity of the Universal Father, being thus launched upon the seas of experience as a self-conscious and a (relatively) self-determinative and self-creative personality. The material self is truly and *unqualifiedly personal*.

P.92 - §3 The Third Source and Center is known by numerous titles: the Universal Spirit, the Supreme Guide, the Conjoint Creator, the Divine Executive, the Infinite Mind, the Spirit of Spirits, the Paradise Mother Spirit, the Conjoint Actor, the Final Co-ordinator, the Omnipresent Spirit, the Absolute Intelligence, the Divine Action; and on Urantia he is sometimes confused with the cosmic mind.

P.93 - §2 The Conjoint Creator inherits all the Father's beauty of thought and character of truth. And these sublime traits of divinity are co-ordinated in the near-supreme levels of the cosmic mind in subordination to the infinite and eternal wisdom of the unconditioned and limitless mind of the Third Source and Center.

P.102 - §3 The Conjoint Creator is absolute only in the domain of mind, in the realms of universal intelligence. The mind of the Third Source and Center is infinite; it utterly transcends the active and functioning mind circuits of the universe of universes. The mind endowment of the seven superuniverses is derived from the Seven Master Spirits, the primary personalities of the Conjoint Creator. These Master Spirits distribute mind to the grand universe as the cosmic

mind, and your local universe is pervaded by the Nebadon variant of the Orvonton type of cosmic mind.

P.102 - §4 Infinite mind ignores time, ultimate mind transcends time, cosmic mind is conditioned by time. And so with space: The Infinite Mind is independent of space, but as descent is made from the infinite to the adjutant levels of mind, intellect must increasingly reckon with the fact and limitations of space.

P.102 - §5 Cosmic force responds to mind even as cosmic mind responds to spirit. Spirit is divine purpose, and spirit mind is divine purpose in action. Energy is thing, mind is meaning, spirit is value. Even in time and space, mind establishes those relative relationships between energy and spirit which are suggestive of mutual kinship in eternity.

P.103 - §2 Since the Third Person of Deity is the source of mind, it is quite natural that the evolutionary will creatures find it easier to form comprehensible concepts of the Infinite Spirit than they do of either the Eternal Son or the Universal Father. The reality of the Conjoint Creator is disclosed imperfectly in the very existence of human mind. The Conjoint Creator is the ancestor of the cosmic mind, and the mind of man is an individualized circuit, an impersonal portion, of that cosmic mind as it is bestowed in a local universe by a Creative Daughter of the Third Source and Center.

P.104 - §4 Cosmic mind, when not associated with either energy or spirit, is subject to the gravity demands of neither material nor spiritual circuits. Pure mind is subject only to the universal gravity grasp of the Conjoint Actor. Pure mind is close of kin to infinite mind, and infinite mind (the theoretical co-ordinate of the absolutes of spirit and energy) is apparently a law in itself.

P.104 - §5 The greater the spirit-energy divergence, the greater the observable function of mind; the lesser the diversity of energy and spirit, the lesser the observable function of mind. Apparently, the maximum function of the cosmic mind is in the time universes of space. Here mind seems to function in a mid-zone between energy and spirit, but this is not true of the higher levels of mind; on Paradise, energy and spirit are essentially one.

P.105 - §3 Much of the technique of reflectivity we comprehend, but there are many phases which truly baffle us. We know that the Conjoint Actor is the universe center of the mind circuit, that he is the ancestor of the cosmic mind, and that cosmic mind operates under the dominance of the absolute mind gravity of the Third Source and Center. We know further that the circuits of the cosmic mind influence the intellectual levels of all known existence; they contain the universal space reports, and just as certainly they focus in the Seven Master Spirits and converge in the Third Source and Center.

P.105 - §4 The relationship between the finite cosmic mind and the divine absolute mind appears to be evolving in the experiential mind of the Supreme. We are taught that, in the dawn of time, this experiential mind was bestowed upon the Supreme by the Infinite Spirit, and we conjecture that certain features of the phenomenon of reflectivity can be accounted for only by postulating

the activity of the Supreme Mind. If the Supreme is not concerned in reflectivity, we are at a loss to explain the intricate transactions and unerring operations of this consciousness of the cosmos.

P.136 - §1 The Third Source and Center assists in the maintenance of the equilibrium and co-ordination of the combined physical and spiritual energies and organizations by the absoluteness of his grasp of the cosmic mind and by the exercise of his inherent and universal physical- and spiritual-gravity complements. Whenever and wherever there occurs a liaison between the material and the spiritual, such a mind phenomenon is an act of the Infinite Spirit. Mind alone can interassociate the physical forces and energies of the material level with the spiritual powers and beings of the spirit level.

P.140 - §9 The goal of existence of all personalities is spirit; material manifestations are relative, and the cosmic mind intervenes between these universal opposites. The bestowal of mind and the ministration of spirit are the work of the associate persons of Deity, the Infinite Spirit and the Eternal Son. Total Deity reality is not mind but spirit-mind--mind-spirit unified by personality. Nevertheless the absolutes of both the spirit and the thing converge in the person of the Universal Father.

P.150 - §2 From these seven special spheres the Master Spirits operate to equalize and stabilize the cosmic-mind circuits of the grand universe. They also have to do with the differential spiritual attitude and presence of the Deities throughout the grand universe. Physical reactions are uniform, unvarying, and always instantaneous and automatic. But experiential spiritual presence is in accordance with the underlying conditions or states of spiritual receptivity inherent in the individual minds of the realms.

P.161 - §7 The Havona worlds are the mind laboratory of the creators of the cosmic mind and the ministers to every creature mind in existence. Mind is different on each Havona world and serves as the pattern for all spiritual and material creature intellects.

P.177 - §3 1. The unifying intelligence circuit of one of the Seven Master Spirits of Paradise. Such a cosmic-mind circuit is limited to a single superuniverse.

P.189 - §2 The Seven Master Spirits are the full representation of the Infinite Spirit to the evolutionary universes. They represent the Third Source and Center in the relationships of energy, mind, and spirit. While they function as the co-ordinating heads of the universal administrative control of the Conjoint Actor, do not forget that they have their origin in the creative acts of the Paradise Deities. It is literally true that these Seven Spirits are the personalized physical power, cosmic mind, and spiritual presence of the triune Deity, "the Seven Spirits of God sent forth to all the universe."

P.189 - §3 The Master Spirits are unique in that they function on all universe levels of reality excepting the absolute. They are, therefore, efficient and perfect supervisors of all phases of administrative affairs on all levels of superuniverse activities. It is difficult for the mortal mind to understand very much about the Master Spirits because their work is so highly specialized yet all-embracing, so exceptionally material and at the same time so exquisitely spiritual. These

versatile creators of the cosmic mind are the ancestors of the Universe Power Directors and are, themselves, supreme directors of the vast and far-flung spirit-creature creation.

P.191 - §4 The Master Spirits are the sevenfold source of the cosmic mind, the intellectual potential of the grand universe. This cosmic mind is a subabsolute manifestation of the mind of the Third Source and Center and, in certain ways, is functionally related to the mind of the evolving Supreme Being.

P.191 - §6 The fact of the cosmic mind explains the kinship of various types of human and superhuman minds. Not only are kindred spirits attracted to each other, but kindred minds are also very fraternal and inclined towards co-operation the one with the other. Human minds are sometimes observed to be running in channels of astonishing similarity and inexplicable agreement.

P.191 - §7 There exists in all personality associations of the cosmic mind a quality which might be denominated the "reality response." It is this universal cosmic endowment of will creatures which saves them from becoming helpless victims of the implied a priori assumptions of science, philosophy, and religion. This reality sensitivity of the cosmic mind responds to certain phases of reality just as energy-material responds to gravity. It would be still more correct to say that these supermaterial realities so respond to the mind of the cosmos.

P.192 - §1 The cosmic mind unfailingly responds (recognizes response) on three levels of universe reality. These responses are self-evident to clear-reasoning and deep-thinking minds. These levels of reality are:

1. *Causation*--the reality domain of the physical senses, the scientific realms of logical uniformity, the differentiation of the factual and the nonfactual, reflective conclusions based on cosmic response. This is the mathematical form of the cosmic discrimination.
2. *Duty*--the reality domain of morals in the philosophic realm, the arena of reason, the recognition of relative right and wrong. This is the judicial form of the cosmic discrimination.
3. *Worship*--the spiritual domain of the reality of religious experience, the personal realization of divine fellowship, the recognition of spirit values, the assurance of eternal survival, the ascent from the status of servants of God to the joy and liberty of the sons of God. This is the highest insight of the cosmic mind, the reverential and worshipful form of the cosmic discrimination.

P.192 - §5 These scientific, moral, and spiritual insights, these cosmic responses, are innate in the cosmic mind, which endows all will creatures. The experience of living never fails to develop these three cosmic intuitions; they are constitutive in the self-consciousness of reflective thinking. But it is sad to record that so few persons on Urantia take delight in cultivating these qualities of courageous and independent cosmic thinking.

P.192 - §6 In the local universe mind bestowals, these three insights of the cosmic mind constitute the a priori assumptions which make it possible for man to function as a rational and self-conscious personality in the realms of science, philosophy, and religion. Stated otherwise, the recognition of the *reality* of these three manifestations of the Infinite is by a cosmic technique of self-revelation. Matter-energy is recognized by the mathematical logic of the senses; mind-reason intuitively knows its moral duty; spirit-faith (worship) is the religion of the reality of spiritual experience. These three basic factors in reflective thinking may be unified and coordinated in personality development, or they may become disproportionate and virtually unrelated in their respective functions. But when they become unified, they produce a strong character consisting in the correlation of a factual science, a moral philosophy, and a genuine religious experience. And it is these three cosmic intuitions that give objective validity, reality, to man's experience in and with things, meanings, and values.

P.193 - §4 When man fails to discriminate the ends of his mortal striving, he finds himself functioning on the animal level of existence. He has failed to avail himself of the superior advantages of that material acumen, moral discrimination, and spiritual insight which are an integral part of his cosmic-mind endowment as a personal being.

P.195 - §2 The Urantia type of human personality may be viewed as functioning in a physical mechanism consisting of the planetary modification of the Nebadon type of organism belonging to the electrochemical order of life activation and endowed with the Nebadon order of the Orvonton series of the cosmic mind of parental reproductive pattern. The bestowal of the divine gift of personality upon such a mind-endowed mortal mechanism confers the dignity of cosmic citizenship and enables such a mortal creature forthwith to become reactive to the constitutive recognition of the three basic mind realities of the cosmos:

1. The mathematical or logical recognition of the uniformity of physical causation.
2. The reasoned recognition of the obligation of moral conduct.
3. The faith-grasp of the fellowship worship of Deity, associated with the loving service of humanity.

P.195 - §7 The cosmic-mind-endowed, Adjuster-indwelt, personal creature possesses innate recognition-realization of energy reality, mind reality, and spirit reality. The will creature is thus equipped to discern the fact, the law, and the love of God. Aside from these three inalienables of human consciousness, all human experience is really subjective except that intuitive realization of validity attaches to the *unification* of these three universe reality responses of cosmic recognition.

P.196 - §11 Is it strange that the cosmic mind should be self-consciously aware of its own source, the infinite mind of the Infinite Spirit, and at the same time conscious of the physical reality of the far-flung universes, the spiritual reality of the Eternal Son, and the personality reality of the Universal Father?

P.266 - §7 Notwithstanding that the cosmic mind of the Universal Intelligence is cognizant of the presence and whereabouts of all *thinking* creatures, there is operative in the universe of universes an independent method of keeping count of all *will* creatures.

P.321 - §3 The Supreme Power Directors and the Supreme Center Supervisors function both as individuals and conjointly with regard to all cosmic phenomena below the levels of "gravity energy." When acting in liaison, these fourteen beings are to universe power what the Seven Supreme Executives are to general universe affairs, and what the Seven Master Spirits are to the cosmic mind.

P.481 - §2 3. Evolving morontia minds--the expanding consciousness of evolving personalities in the local universe ascending careers. This is the bestowal of the local universe Mother Spirit in liaison with the Creator Son. This mind level connotes the organization of the morontia type of life vehicle, a synthesis of the material and the spiritual which is effected by the Morontia Power Supervisors of a local universe. Morontia mind functions differentially in response to the 570 levels of morontia life, disclosing increasing associative capacity with the cosmic mind on the higher levels of attainment. This is the evolutionary course of mortal creatures, but mind of a nonmorontia order is also bestowed by a Universe Son and a Universe Spirit upon the nonmorontia children of the local creations.

P.481 - §3 *The cosmic mind.* This is the sevenfold diversified mind of time and space, one phase of which is ministered by each of the Seven Master Spirits to one of the seven superuniverses. The cosmic mind encompasses all finite-mind levels and co-ordinates experientially with the evolutionary-deity levels of the Supreme Mind and transcendently with the existential levels of absolute mind--the direct circuits of the Conjoint Actor.

P.481 - §4 On Paradise, mind is absolute; in Havona, absonite; in Orvonton, finite. Mind always connotes the presence-activity of living ministry plus varied energy systems, and this is true of all levels and of all kinds of mind. But beyond the cosmic mind it becomes increasingly difficult to portray the relationships of mind to nonspiritual energy. Havona mind is subabsolute but superevolutionary; being existential-experiential, it is nearer the absonite than any other concept revealed to you. Paradise mind is beyond human understanding; it is existential, nonspatial, and nontemporal. Nevertheless, all of these levels of mind are overshadowed by the universal presence of the Conjoint Actor--by the mind-gravity grasp of the God of mind on Paradise.

P.483 - §11 The liaison of the cosmic mind and the ministry of the adjutant mind-spirits evolve a suitable physical tabernacle for the evolving human being. Likewise does the morontia mind individualize the morontia form for all mortal survivors. As the mortal body is personal and characteristic for every human being, so will the morontia form be highly individual and adequately characteristic of the creative mind which dominates it. No two morontia forms are any more alike than any two human bodies. The Morontia Power Supervisors sponsor, and the attending seraphim provide, the undifferentiated morontia material wherewith the morontia life can begin to work. And after the morontia life it will be found that spirit forms are equally diverse, personal, and characteristic of their respective spirit-mind indwellers.

P.638 - §7 This infinite and universal mind is ministered in the universes of time and space as the cosmic mind; and though extending from the primitive ministry of the adjutant spirits up to the magnificent mind of the chief executive of a universe, even this cosmic mind is adequately unified in the supervision of the Seven Master Spirits, who are in turn co-ordinated with the Supreme Mind of time and space and perfectly correlated with the all-embracing mind of the Infinite Spirit.

P.639 - §4 While mind is more unified on the level of the Master Spirits in association with the Supreme Being and as the cosmic mind in subordination to the Absolute Mind, the spirit ministry to the evolving worlds is more directly unified in the personalities resident on the headquarters of the local universes and in the persons of the presiding Divine Ministers, who are in turn well-nigh perfectly correlated with the Paradise gravity circuit of the Eternal Son, wherein occurs final unification of all time-space spirit manifestations.

P.639 - §6 Spirit must always and ultimately become threefold in expression and Trinity-unified in final realization. Spirit originates from one source through a threefold expression; and in finality it must and does attain its full realization in that divine unification which is experienced in finding God--oneness with divinity--in eternity, and by means of the ministry of the cosmic mind of the infinite expression of the eternal word of the Father's universal thought.

P.1108 - §1 Faith-insight, or spiritual intuition, is the endowment of the cosmic mind in association with the Thought Adjuster, which is the Father's gift to man. Spiritual reason, soul intelligence, is the endowment of the Holy Spirit, the Creative Spirit's gift to man. Spiritual philosophy, the wisdom of spirit realities, is the endowment of the Spirit of Truth, the combined gift of the bestowal Sons to the children of men. And the co-ordination and interassociation of these spirit endowments constitute man a spirit personality in potential destiny.

P.1211 - §6 The seven circles embrace mortal experience extending from the highest purely animal level to the lowest actual contactual morontia level of self-consciousness as a personality experience. The mastery of the first cosmic circle signalizes the attainment of premorontia mortal maturity and marks the termination of the conjoint ministry of the adjutant mind-spirits as an exclusive influence of mind action in the human personality. Beyond the first circle, mind becomes increasingly akin to the intelligence of the morontia stage of evolution, the conjoined ministry of the cosmic mind and the superadjutant endowment of the Creative Spirit of a local universe.

P.1216 - §3 There is a cosmic unity in the several mind levels of the universe of universes. Intellectual selves have their origin in the cosmic mind much as nebulae take origin in the cosmic energies of universe space. On the human (hence personal) level of intellectual selves the potential of spirit evolution becomes dominant, with the assent of the mortal mind, because of the spiritual endowments of the human personality together with the creative presence of an entity-point of absolute value in such human selves. But such a spirit dominance of the material mind is conditioned upon two experiences: This mind must have evolved up through the ministry of the seven adjutant mind-spirits, and the material (personal) self must choose to co-operate with the indwelling Adjuster in creating and fostering the morontia self, the evolutionary and potentially immortal soul.

P.1218 - §6 The midway creatures have long denominated this evolving soul of man the mid-mind in contradistinction to the lower or material mind and the higher or cosmic mind. This mid-mind is really a morontia phenomenon since it exists in the realm between the material and the spiritual. The potential of such a morontia evolution is inherent in the two universal urges of mind: the impulse of the finite mind of the creature to know God and attain the divinity of the Creator, and the impulse of the infinite mind of the Creator to know man and attain the *experience* of the creature.

P.1234 - §6 1. The fabrication of a suitable form, a morontia energy pattern, in which the new survivor can make contact with nonspiritual reality, and within which the morontia variant of the cosmic mind can be encircuited.

P.1235 - §2 The fact of repersonalization consists in the seizure of the encircuited morontia phase of the newly segregated cosmic mind by the awakening human self. The phenomenon of personality is dependent on the persistence of the identity of selfhood reaction to universe environment; and this can only be effected through the medium of mind. Selfhood persists in spite of a continuous change in all the factor components of self; in the physical life the change is gradual; at death and upon repersonalization the change is sudden. The true reality of all selfhood (personality) is able to function responsively to universe conditions by virtue of the unceasing changing of its constituent parts; stagnation terminates in inevitable death. Human life is an endless change of the factors of life unified by the stability of the unchanging personality.

P.1236 - §2 In the morontia estate the ascending mortal is endowed with the Nebadon modification of the cosmic-mind endowment of the Master Spirit of Orvonton. The mortal intellect, as such, has perished, has ceased to exist as a focalized universe entity apart from the undifferentiated mind circuits of the Creative Spirit. But the meanings and values of the mortal mind have not perished. Certain phases of mind are continued in the surviving soul; certain experiential values of the former human mind are held by the Adjuster; and there persist in the local universe the records of the human life as it was lived in the flesh, together with certain living registrations in the numerous beings who are concerned with the final evaluation of the ascending mortal, beings extending in range from seraphim to Universal Censors and probably on beyond to the Supreme.

P.1236 - §4 There are no influences in the local universe career comparable to the seven adjutant mind-spirits of human existence. The morontia mind must evolve by direct contact with cosmic mind, as this cosmic mind has been modified and translated by the creative source of local universe intellect--the Divine Minister.

P.1237 - §2 When a creature leaves his native planet, he leaves the adjutant ministry behind and becomes solely dependent on morontia intellect. When an ascender leaves the local universe, he has attained the spiritual level of existence, having passed beyond the morontia level. This newly appearing spirit entity then becomes attuned to the direct ministry of the cosmic mind of Orvonton.

P.1269 - §2 Throughout the evolutionary ages the physical power potential of the Supreme is vested in the Seven Supreme Power Directors, and the mind potential reposes in the Seven Master Spirits. The Infinite Mind is the function of the Infinite Spirit; the cosmic mind, the ministry of the Seven Master Spirits; the Supreme Mind is in process of actualizing in the co-ordination of the grand universe and in functional association with the revelation and attainment of God the Sevenfold.

P.1269 - §3 The time-space mind, the cosmic mind, is differently functioning in the seven superuniverses, but it is co-ordinated by some unknown associative technique in the Supreme Being. The Almighty overcontrol of the grand universe is not exclusively physical and spiritual. In the seven superuniverses it is primarily material and spiritual, but there are also present phenomena of the Supreme which are both intellectual and spiritual.

P.1272 - §2 Early in the projection of the superuniverse scheme of creation, the Master Spirits joined with the ancestral Trinity in the cocreation of the forty-nine Reflective Spirits, and concomitantly the Supreme Being functioned creatively as the culminator of the conjoined acts of the Paradise Trinity and the creative children of Paradise Deity. Majeston appeared and ever since has focalized the cosmic presence of the Supreme Mind, while the Master Spirits continue as source-centers for the far-flung ministry of the cosmic mind.

P.1273 - §14 The bifurcation of energy and spirit (stemming from the conjoint presence of the Eternal Son and the Paradise Isle) was symbolized in the superuniverse sense when the Seven Master Spirits unitedly engaged in their first act of collective creation. This episode witnessed the appearance of the Seven Supreme Power Directors. Concomitant therewith the spiritual circuits of the Master Spirits contrastively differentiated from the physical activities of power director supervision, and immediately did the cosmic mind appear as a new factor co-ordinating matter and spirit.

P.1278 - §3 When an evolving mind becomes attuned to the circuits of cosmic mind, when an evolving universe becomes stabilized after the pattern of the central universe, when an advancing spirit contacts the united ministry of the Master Spirits, when an ascending mortal personality finally attunes to the divine leading of the indwelling Adjuster, then has the actuality of the Supreme become real by one more degree in the universes; then has the divinity of Supremacy advanced one more step toward cosmic realization.

P.1304 - §2 God the Supreme is the personalization of all universe experience, the focalization of all finite evolution, the maximation of all creature reality, the consummation of cosmic wisdom, the embodiment of the harmonious beauties of the galaxies of time, the truth of cosmic mind meanings, and the goodness of supreme spirit values. And God the Supreme will, in the eternal future, synthesize these manifold finite diversities into one experientially meaningful whole, even as they are now existentially united on absolute levels in the Paradise Trinity.

P.1436 - §1 All static, dead, concepts are potentially evil. The finite shadow of relative and living truth is continually moving. Static concepts invariably retard science, politics, society, and religion. Static concepts may represent a certain knowledge, but they are deficient in wisdom and devoid of truth. But do not permit the concept of relativity so to mislead you that you fail to

recognize the co-ordination of the universe under the guidance of the cosmic mind, and its stabilized control by the energy and spirit of the Supreme.

P.1949 - §5 Intelligence grows out of a material existence which is illuminated by the presence of the cosmic mind. Wisdom comprises the consciousness of knowledge elevated to new levels of meaning and activated by the presence of the universe endowment of the adjutant of wisdom. Truth is a spiritual reality value experienced only by spirit-endowed beings who function upon supermaterial levels of universe consciousness, and who, after the realization of truth, permit its spirit of activation to live and reign within their souls.

P.2078 - §1 The finite universe of matter would eventually become uniform and deterministic but for the combined presence of mind and spirit. The influence of the cosmic mind constantly injects spontaneity into even the material worlds.

P.2078 - §2 Freedom or initiative in any realm of existence is directly proportional to the degree of spiritual influence and cosmic-mind control; that is, in human experience, the degree of the actuality of doing "the Father's will." And so, when you once start out to find God, that is the conclusive proof that God has already found you.
